Greetings . . . 1958

Dear Iris Friends:

Suddenly now it will be spring and mother nature will beckon us forth to behold her wonders. The winter has been favorable so we anticipate an abundant bloom season. Numbered sdlg for the past several years are being closely watched, however, the newcomers lined out by the thousand will receive the greatest attention. Each maiden bloom will pass before the judgement stand and a special few will be numbered. So the cycle goes on from year to year and eventually a very special one may receive a name. Such a one is our 55-56 now named "ANGIE" and scheduled for introduction next year. To my knowledge it will be the first named iris from our "Sunshine State."

We are indeed happy to be able to offer the new introductions of Dubes, Sass and Ricker, Emery and Radschlag.

We wish to say "Thank You" to the many satisfied customers and friends. Your letters of praise have been most deeply appreciated. We extend a hearty welcome to all who can come and visit our many fields at bloom time. You are invited to come and enjoy the Iris with us.

Sincerely,

CLIFFORD W. SMITH

We guarantee every Iris to be true to name and will replace any that fails to live if notified by Oct. 1st, 1958, but cannot be responsible for winter-kill. Rhizomes we send you will be carefully selected blooming size, grown in fertile pest-free soil. Give them a fair chance and every one should bloom for you the first year. We will not substitute without your permission. We send you exactly what you order, or promptly return your money for any we cannot supply in TOP-NOTCH QUALITY. Order early and plant early. We begin digging and shipping about July 5 and continue until about Oct. 1st, but the earlier you plant the better the first year bloom will be. All orders are freshly dug. They should reach you almost as green and fresh as if dug from your own garden. Remember—we like to be generous; please list a few extra varieties so that we may select a gift which you would like. No spring delivery please.
